UNIQUE VALUE PROPOSITION

Jürgen Tietz:

Professional Speaker (Health & Safety), Thought Leader, Author

EMPLOYMENT HISTORY [all with AEL]

- 23 years with AEL as a Manager and Mechanical Engineer.
- Reputation for being an independent, assertive, enthusiastic, results-oriented expert and leading authority in mass production equipment, manufacturing, productivity improvement, change management, leadership, communication and people relationships, especially across cultures.
- Significantly increased sales, reduced costs, increased productivity, improved machine designs, and developed and implemented innovative processes and systems for Quality & SHE, engineering and shifts, some of which were world firsts.
- Key achievements:
 - Recognized by colleagues as an **expert on mass production** equipment, manufacturing, and productivity improvement. Also judged inside AECI Explosives Limited (AEL) as an authority on communication and people relationships.
 - Annually **doubled sales volumes** of Underground Bulk Systems Technologies (UBST) by opening up the market in Africa. Cut back the fixed & variable costs and established strong **global links**.
 - Developed and implemented the UBST **Strategy & Business Plan**, Marketing plan and introduced computerized project planning.
 - Upgraded & **improved manufacturing plants** and implemented a **World Class** System [Quality & SHE], as well as developed equipment and innovations like piping explosives into a mine [A world first!]
 - **Increased the productivity** of an emulsion manufacturing process and the design of the German built machines with dramatic results.
 - Integrated engineering & process, developed the PEOPLE philosophy and created a strong departmental **identity & culture**.
 - Implemented a **continuous shift** system and productive spare shift activities / training.
 - Reintroduced an extrusion process, including pioneering an **unmanned night-shift**, yielding 25 % additional output! [This was another world first for this type of operation!]
 - Revolutionized the **manufacturing culture** of a metal forming plant. Presented with Toyota's **Best Ideas Award** at an international SAPICS conference in 1988 for this work.
- Business Manager 2½ years
- Manufacturing technology manager 3 years
- Project manager 3 years
- Production manager 2 years
- Section Engineer 7 years
- Early Career 4½ years
